

BRADFORD WHITE

# COMBI2™ SERIES WATER HEATERS

WATER HEATERS FOR HOT WATER AND SPACE HEATING

The Combi2™ is the next generation of ingenious combination heating products from Bradford White. It is the perfect system for home space heating and potable hot water from a single energy-saving source.

- Conventional and power-vented models available
- Capacities of 50 & 75 gallons
- Combination, dual purpose heater saves space
- Renowned Defender Safety System™ on 50-Gallon models
- Available in Natural and LP Gas
- First hour rating of 105 to 140 gallons
- 1½" O.D. steel heat exchanger coil with ¾" NPT connections
- Coil is Vitraglas™-coated for corrosion resistance and long life
- Patented double-wall carbon steel coil with possible leak path
- Coil inlet & outlet connections welded to tank
- Low pressure drop - 8 GPM flow gives 2.3 ft. of head loss
- Over 14.2 sq. ft. of heat exchanger surface area
