

BRADFORD WHITE
HIGH PERFORMANCE SERIES™
25-GALLON WATER HEATER

Out of this World Output! There's just no comparison. Bradford White's new High Performance 25-gallon water heater offers the highest First Hour Delivery of any product in its class. And, its small footprint saves much needed space!

- Provides an unprecedented 155-gallon First Hour Delivery
- Higher FHD than conventional 75 gallon
- Powerful 78,000 BTU/Hr input
- Conventional 4" venting
- Spiral fins for exceptional heat transfer
- Thermostatically controlled mixing valve included
- Hydrojet® Total Performance System
 - ✓ Reduces sediment build-up
 - ✓ Increases first hour delivery
 - ✓ Minimizes thermal stratification
- Side tappings for space heating
